<b>VTT archive code</b> VTT-R-01378-20	<b>Lead beneficiary archive code</b>	

### Abstract

This deliverable, in its first iteration, contained a proposal for service contract which SMEs and service providers can use when contracting for services through the marketplace. In this second iteration we have added a "Frequently Asked Questions" or "FAQ" because during the first round of KTEs it became clear that certain stakeholders do not fully understand how to identify and protect their rights and interests when participating to the KTEs. We also prepared an informed consent form to facilitate certain APPS experiments which will take place during the second round of KTEs.
