Abstract

D6.5 is the second report on the dissemination of the open calls and marketing of project results, covering the last reporting period from April 2021.

This deliverable includes information on the First Open Call, the Second Expression of Interest and Second Open Call, outlining the activities and longer-term learnings. The report also focuses equally on the overall exploitation of the project, which will mainly take place via the continuation of RAMP (Robotics Automation Marketplace), as well as through the success stories and learnings of the project, including the KTEs, Deliverables, social media materials, and scientific publications. The objective of these actions is to ensure a longer-term and sustainable impact after the project's end.
